Continuation of Substance of Interview including description of the general nature of what was discussed: It was agreed to amend the claims as shown in the Examiner's Amendment for the sake of clarity and accuracy. It was noted that the terminal disclaimers filed 11/30/07 were approved to overcome an obviousness-type double patenting rejection over the claims in U.S. Patent 7,258,804, and a provisional obviousness-type double patenting rejection over the claims in 10/936,915. It was noted by Mr. Shkurko that the instant application and 7,258,804, were commonly owned at the time the instant invention was made.
